1 An interrupt based organization for management information systems   ■
Howard Lee Morgan
December 1970 **Communications of the ACM**, Volume 13 Issue 12

Full text available: 📄 pdf(682.30 KB)   Additional Information: full citation, references, citings

Keywords: integrated data processing supervisors, interrupt scheduling, interrupts, management information systems, monitoring systems, parallel processing, supervisory systems

2 Structure and Flow: "I'd be overwhelmed, but it's just one more thing to do": availability ▦
and interruption in research management
James M. Hudson, Jim Christensen, Wendy A. Kellogg, Thomas Erickson
April 2002 **Proceedings of the SIGCHI conference on Human factors in computing systems: Changing our world, changing ourselves**

Full text available: 📄 pdf(613.69 KB)   Additional Information: full citation, abstract, references, citings, index terms

Many CSCW projects dealing with individual availability and interruption filtering achieve only limited success. Perhaps this is because designers of such systems have limited evidence to draw upon; most data on interruption management is at least a decade old. This study uses an empirical sampling method and qualitative interviews to examine attitudes toward availability and interruption. Specifically, we analyze how corporate research managers spend their time and look at how their attitudes t ...

Keywords: CSCW, attention economy, availability, interruption, managers, social translucence, time management

3 A proposal for certain process management and intercommunication primitives   ▦
Gary D. Knott
October 1974 **ACM SIGOPS Operating Systems Review**, Volume 8 Issue 4
